

ABOUT ME

Tyler Hanks
Chemist

thanks@chromascape.com

Tyler Hanks is one of ChromaScape's seasoned Chemists. In his role, Tyler plays a pivotal role in product development. With a focus on precision, he develops products that align seamlessly with customer specifications, maintaining high standards in quality and operational goals. His contributions extend to product platform development, where he applies statistical experimental design, conducts product testing and analyzes data to enhance innovation. Tyler is an integral part of project development, leveraging his application and data skills to ensure project success.

Tyler has a rich background in the automotive coatings industry. He brings extensive experience in project management, product development and technical support. As a former group leader, he spearheaded projects and departments, aligning them with business objectives and fostering growth opportunities for team members. His proficiency in color, application and formulation supported the evaluation and enhancement of existing and future products, all while adhering to rigorous quality standards and regulatory requirements. As a Development Chemist, Tyler excelled in analyzing technical reports, presenting statistical analyses and collaborating cross-functionally to streamline product development processes. Noteworthy achievements include securing new business with prominent automotive manufacturers and leading initiatives such as System Applications and Products (SAP) migration projects.

Tyler holds a Bachelor of Arts in Biology, with strong foundations in Chemistry, from Thiel College in Greenville, Pennsylvania.

Tyler enjoys spending quality time with his family and friends, engaging in a variety of activities. A lifelong passion for sports, particularly soccer and golf, has been a constant source of enjoyment and camaraderie. Traveling holds a special place in his and his fiancée's heart, not only for creating great memories, but also for providing their cherished pet Dachshund with adventures and experiences that enhance his life. Whether seeking thrills through cliff-diving into lava tubes or indulging in local cuisines and breathtaking views, each journey is an opportunity for discovery and excitement. Back at home, board games foster laughter and friendly competition, while his appreciation for music, art and photography allows him to explore creativity and self-expression.

Top Skills:

Product Development • Management • Analytical • Laboratory Equipment

Specialties:

Chemistry • Dispersions • Paints • Lubricants • Inks • Green Belt Lean Six Sigma • Color Matching • ERP Systems

Experience:

Nippon Paint Automotive Americas, Inc.: **Development Chemist/Group Leader**

PPG Industries: **Lab Technician**

TestOil/Insight Services: **Lab Technician**
